

Typical component

General Information

All dimensions in mm
General tolerances:
 $\pm 0.13\text{mm}$
Material:
Stainless steel or
Aluminium alloy or
Brass
Pressure angle 20°

Associated Products

Spur gears
Fasteners

Visit our online catalogue for associated products at:
www.reliance.co.uk

Process Capabilities:

Stainless steel, aluminium alloy or brass.

Module range: 0.4 to 1 mod.
(larger modules available, depending on blank dimensions).

Pitch diameters up to 360 mm.

Standard gear quality AQ8.

Typical Applications:

Rotary tables.

Radar antenna pick-off.

Robot waist joint pick-off.
