

Standard Linear Guides or Linear Rail Systems

Part Number Description --- SBG, SBS, SBI, Series --- Material: Bearing Steel

SBG - 015 - FL - SS - 1 - KO - 1500 - N - N - RC - 30 x 30

Model Code

SBG	Standard Rail
SBS	Low Profile Rail

Block Size

015	Size 15
020	Size 20
025	Size 25
030	Size 30
035	Size 35
045	Size 45
055	Size 55
065	Size 65

Block Type

FL	Flanged
FLL	Flanged Long
SL	Slim
SLL	Slim Long
FV	Flanged Compact
SV	Slim Compact

Seal Type

SS	Standard Seal
DD	Double Seal
KK	Double Seal & Scraper
HT	High Temperature
ZZ	Seal & Scraper

Number of blocks on rail

Preload

KO	Clearance
K1	Normal Preload
K2	Light Preload
K3	High Preload

Accuracy

N	Normal
H	High
P	Precision

Rail length in millimeters

Distance from opposite end of rail to first bolt hole in millimeters

Distance from end of rail to first bolt hole in millimeters

Hole Seals

RC	Hole Caps
ST	Stainless Steel Strip

Plating

N	None
R	Raydent
TDC	Thin Dense Chrome
TDNC	Thin Dense Composite
